A Father Given Charge of His Children Court of Appeals Yesterday.

Court of Appeals, and a large number of teions were rendered. The court will

probably adjourn to-day. of Bedford county being reversed. The Court was unat mous in holding that the Circuit Judge should have sustained the out of the famous Thaxton disaster, which culvert which had been there for thirty-five years, and always before had carried off the waters of the heaviest storms. On that night there was a series of cloudbursts around the base of the Peaks of Otter, and from one of these the water accumulated so deep regainst this embank-ment that it washed out the culvert, and the train coming along soon thereafter ran upon the rails, which were still in place. and sank into the chasm below, causing one of the most terrible calamities known

in the history of Virginia railroads.

The defence of the railroad company The defence of the railroad company was that the accident was caused by the act of God in the shape of this unprecedented storm, and that no diligence on its part could have prevented the accident. The plaintiff's attorneys contended that the railroad company could have avoided the consequences of the act of God by ordinary care. The jury fixed the damages at \$7.500, and the Circuit Court gave judgment against the company. Now the Court of Appeals declares that no negligence of any kind whatever was proved against the company, and that it is not responsible for the damages sustained. The Council Committee on Streets held a called meeting yesterday evening and approved the action of its sub-committee in extending the time of Mr. Goodwin, the paver, in which to complete his contract with the city until February 10th. No other business was transacted. The Committees on Fire Department and St. John's Furring-Ground also met and transacted routine business.

The Committee on Retrenchment and Reform airo held a session, but that body still keeps its affairs secret.

FATHER KEEPS THE CHILDREN.

Judge Hinton delivered the decision in the case of Slater against Slater, from the Circuit Court of York county, involving the care of three Infant children of Charles H. Slater, and having arisen between the husband and wife, the former prayed to the Judge of the County Court of York for the custody of his children, but this was denied him. An appeal was taken to the Circuit Court, and the judgment of the lower court was set aside, and the little ones turned over to the father. The case in this form came up to the Supreme Court. Judge Hinton, in delivering the opinion of the latter tribunal, stated that it was the custom of the Court to remand the children in such cases to the parent at whose hands they would receive the greatest degree of affection and tenderness, and with whom their best interests and welfare would be subserved. However, in this case, the father being an able and provident man, and the mother being in rather humble circumstances. the Court decided that the father should have the care of humble circumstances, the Court decide that the father should have the care of the infants

AN EVASION OF THE LAW. the opinion in the case of Lewis against the Commonwestit, which came up from the County Court of Accomac. The defendant in this case, in the lower court was tried and convicted upon an indictment chargins him with selling liquors without first having obtained a license to do so. The paintiff in error claimed that he did not sell the liquor, but that it had been bought beforehand by a number of gentiemen, who, when they went to take a drink, would drop a small sum of money in a box. The Court held that this was an evasion of the law, and that the judgment of the Circuit Court was correct.

Council Committee Meetings.

At the First Presbyterian church last night there was a meeting of the Presbyterian pastors of the city and vicinity, together with one layman from each church, to receive and consider offers of sites and donations of money as inducements for the removal of Union Theological Seminary, now situated in Prince Edward county, to this city.

Dr. Kerr presided as chairman, and Rev. C. N. Van Houten was elected secretary of the meeting. Rev. Drs. W. W. Moore and T. E. English, professors in the seminary, who had been invited to Richmond to inspect the sites offered, were also present by invitation of the chairman.

Five offers of sites were presented through the chairman, one of them agrouph and another of \$7,500 in money.

After discussion it was decided to present all of the offers, without recommendation, to the committee of the Board of Trustees of the seminary, and after the decision of that body shall have been

It ought not to, always. Take the matter of washing with Pearline, for instance. That is a pleasant economy. That ought to be pleasant to think of, whether you're doing the work yourself, or having it done. Millions use Pearline.

Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—rend it back.
